Dear Traci,

During recent conversations on our campus, I learned about the College Education Milestone Foundation and the wonderful support the foundation has given the college students since it was founded. As I reviewed information on the website, I was even more impressed with the work of the foundation and your history.

The motto that I use in my job at John Jay College is "Students First." It is obvious to me that the support given to students by your foundation is consistent with our motto.

I want to give you and the foundation my personal and professional thanks for the impact you have had on students and especially those at John Jay College. So many of our students struggle with financial difficulties and the financial support you provide has enabled them to continue their education and receive their degrees.

With Deep Gratitude,
