

10/4/2011

Dear CEM foundation,

My name is Nicholas Buono. I am writing this thank you to the foundation to express my appreciation for this assistance. I have used this money I was granted to help me pay for my textbooks. This scholarship has held my family finances in a huge way. I am currently majoring in Forensic Science at John Jay College. I plan on graduating from this program and finding a job in this field. Thank you again for the generosity and opportunity. I promise to keep working hard and show the reasons why this scholarship was given to me in the first place.

Sincerely  
Nicholas Buono

Dear College Education Milestone Foundation,

I would first like to say thank you. Receiving this scholarship has helped me a lot. With the scholarship I was able to buy the necessary books and supplies I needed for my classes. My mom is out of work, so the money I received was very useful to get the supplies I needed. I am very thankful for being chosen.

I am currently in John Jay studying to be a forensic psychologist. To have a career as a forensic psychologist has been my dream for a while now and it is going to mean a lot to me to completely finish school and begin to live out my dream career.

This scholarship is going to be very useful to me. My mom has recently hurt herself and it is unsure of when she will return to work. The College Milestone Scholarship is a great benefit to me because it helps to take stress off of my family in regards to getting the supplies I need for school.

Once again, I would like to thank you and I look forward to continuing to build a connection with your foundation.

Sincerely,  
Justine Ford.

Dear College Education Milestone Foundation,

16-Oct-2011

The College Education Milestone Scholarship has helped me immensely. As a student who does not receive the full benefits from financial aid, the college education milestone scholarship has been a staple for controlling my college finances. I am a chronic hive sufferer and my medication is an out-of-pocket expense and a meeting with my allergist requires a co-payment. My dad recently had an operation and has been giving a lighter workload to accommodate his needs. He also receives physical therapy to remedy his shoulder and back problems, temporarily. Co-payments are a steep price for my dad and me. As a result, I am not forced to choose between medication and paying tuition. I am able to attend John Jay College without worrying about an outstanding balance. For all of this, I am extremely thankful and blessed.

My current major is Humanities and Justice Studies. I also plan to minor in English. After undergraduate college, I plan to pursue a degree in law and dream of attending Columbia Law School or NYU Law School. I have developed a strong interest in civil rights issues and plan to concentrate in that field of law; especially those pertaining to the lesbian, gay, bisexual, and transgender community.

Thank You,  
Nicholas Guarriello

10/2/11

To the College Education Milestone foundation:

I truly thank you for the scholarship I was rewarded. Currently, I am studying forensic science at John Jay and I enjoy all of my classes. Studying is easy when you actually care about what you are learning. The scholarship has helped me a lot, because without it I would have to work and go to school. If that were the case, I think my grades would drop significantly. So I thank you once again!

Sincerely,  
Tanya Mapolitano

Dear College Education Milestone Foundation,

First and foremost, I would like to express deep appreciation to the College Education Milestone Foundation for this scholarship. College has always been a goal of mine, but with the sky rocketing expenses that are involved with it, I was unsure of whether or not I would be able to attend. When receiving the news of this scholarship I was overcome with joy. It has opened so many doors that I believed were unavailable to me. I am able to access resources which will help me to reach my full potential as a Forensic Psychology student. And for this I say thank you.

Sophie Plaisir

Dear College Education Milestone Foundation,

I just wanted to thank you for the scholarship. Any support that I can receive in this economy is greatly appreciated. I will be saving the scholarship to be used for future tuition. It may even contribute to my graduate school expenses in a few years. I am currently a forensic science major. Some of my hobbies are dancing, stepping, and listening to music. Again, thank you very much.

From,

Stacey-Ann Sterling

Dear College Education Milestone Foundation,

I would like to use this letter to truly express my sincerest gratitude for the generous donation through your scholarship. This scholarship could not have come at a better time. My father is presently out of a job, and being the first generation American in the family, his main goal for me was to go to college and get the education he never could.

This is also a good opportunity for me to tell you a little about myself. I am a member of John Jay's Honors Program and John Jay's Rifle Team. I am majoring in International Criminal Justice with the goal that I will get a job with Interpol and work in Budapest. This way I can help my mother country just like it helped me. Again, I sincerely thank you for this opportunity.

David R. Vegvari
